Quick Overview

- Good performance and high dry matter yield
- Suitable to a variety of climatic conditions
- Very good spring vigor
- Tetraploid, Westerwold

Adaptation

A Westerworld type annual grass suitable for hay, haylage or pasture. Elunaria offers a high yield opportunity with very good quality broad leaves.

Elunaria provides full-season production and good regrowth capability. Elunaria performs best in black and grey soil zones, with adequate moisture.

Notes

TYPE	Westerwold
