## Dual Purpose/Hay or Pasture

**Dual Max ENHANCED** – High quality grasses that have very good regrowth habits. This blend will offer excellent grazing potential and is suited to most grazing systems. Prefers medium to heavy soils.

- 50% Fleet Meadow Bromegrass
- 25% Carlton Smooth Bromegrass
- 20% High Arctic Brand Orchardgrass
- 5% Alfalfa Blend 10-5

**Dryland Dual Max NEW**– Dryland pasture production. Meadow Bromegrass offers a long grazing season with very good quality and regrowth. Crested Wheatgrass, excellent early season growth.

- 65% Fleet Meadow Bromegrass
- 15% Kirk Crested Wheatgrass
- 15% Pubescent Wheatgrass
- 5% Runner Alfalfa

**Bloat Free Max ENHANCED** – Cicer Milkvetch is a hardy non-bloat legume. Fleet Meadow Bromegrass and Courtenay Tall Fescue are very adaptable grasses.

- 40% Fleet Meadow Bromegrass
- 25% AAC Mountainview Sainfoin
- 25% Cicer Milkvetch
- 15% Courtenay Tall Fescue

**Saline Pasture Max** – High quality all grass blend, no concerns with bloat. Widely adapted blend to various soil types and moisture conditions.

- 30% Courtenay Tall Fescue
- 30% Carlton Smooth Bromegrass
- 20% Slender Wheatgrass
- 20% Dahurian Wildrye

**Western Grass Max ENHANCED** – High quality all grass blend. If properly managed can be a very productive pasture blend. No concerns with bloat.

- 45% Fleet Meadow Bromegrass
- 25% High Arctic Brand Orchardgrass
- 15% Ranchers Brand Tall Fescue
- 10% Express Timothy
- 5% Creeping Red Fescue
